

The Time of Jacob's Trouble

BOOK SUMMARY

Jacob Rosenberg, a hard-working business owner in Israel, suddenly finds his world turned upside down when a nuclear war erupts in the Middle East between his homeland and their enemies.

As the nations of the world rush to stabilize the region and prevent another devastating nuclear exchange, Israel finds itself completely alone and surrounded by a massive Coalition promising peace in exchange for her national sovereignty. Will Israel survive with all the nations arrayed against her?

And when strange, god-like extraterrestrials arrive on the earth promising peace, security, and goodwill, can they be trusted? Are they really the observers, guardians, and protectors of mankind as they proclaim?

Who is this coming World Leader they speak of, who is to guide mankind through a period of trials as the world begins to take the next great step in its evolution? Could this new World Leader be the long-awaited Messiah that the Jewish prophets spoke of centuries before?

Follow the story of an Israeli family and their struggle to survive in a world quickly being altered by war, fear, and deception. Will they be able to discern the truth of

what is happening on the earth before it's too late?
